

Albert Soady (Pop)

Scion of the Soady family and a widower, he's raised his boys right, even though they're, in his words, not the sharpest tools in the shed. Don't let his lack of education fool you—Pop's no dummy. His gruff demeanor hides his love for his boys, and his hope that maybe, one day, they'll both get their acts together, 'cause he's getting a little too old to kick their butts anymore.

Reuben Soady

Unsure of himself, and his place in the family. Graduated in the lower half of his Escanaba High class. He lacks confidence and is not "leadership material". He is easily frustrated at the problems of daily life, and doesn't deal with them well. Although he grew up surrounded by woods and nature, he has never really felt comfortable there.

Remnar Soady

Unlike his brother, Remnar does not become frustrated by the obstacles in his path; he has gained experience by encountering many in his life—most through his own making. However, once he finds something that works, Remnar is unwilling to change his ways. Although Remnar did not do as well in school as Reuben, he is not a complete moron and should not be portrayed as such.

Jimmer Negamanee

A true mountain man who could be 30 or 80. He knows about as much as a white man can know about nature. Unlike Pop and Remnar, Jimmer is open to Reuben's introduction of Indian ways into the camp.

Ranger Tom T. Treado

A man whose authority comes solely from his uniform. Physically and intellectually challenged not only by the hunters around him, but by the woods he has sworn to protect. His entire existence is called into question this night, and he is trying to make sense of it. So far, he is failing.

Wolf Moon Dance Soady

Reuben's strength and center. Self-confident, and a master of nature, with a wisdom of many lifetimes. "A woman gives grace to man's otherwise meaningless existence." (*B. Breathed*)

Great-grandpa Alphonse Soady

The immigrant, original American Soady scion, he built this camp and this family, and is larger than life. Which is good, as he's dead, and as full of wisdom as the dead can be. He's come back, briefly, to help Reuben become the man he could be.
